NORTHERN MANCHURIA.

Russia Attempting to Establish a Permanent Foothold.

Washington, March 5.—Russia's renewed attempt to establish a permanent foothold in Northern Manchuria by making Vladivostok the port of entry, thereby offsetting the loss of Dalny and Port Arthur, is described in an official report, part of which was made public at the state department during the day. The report recently reached Washington from one of the department's agents in China. It expresses the belief that this will redound to the development of American trade and will result in a curtailment of the importance of Shanghai as a distributing point. The extract given out says:

"Since the conclusion of peace between Russia and Japan there has been much speculation in the foreign community of Shanghai as to the future opportunity for trade and development in Manchuria and therefore the negotiations between Japan and China and the diplomatic moves of Russia at Peking have been watched with the closest attention.

"As soon as the way to Vladivostok was open there ensued a rush of steamers from Shanghai, Tsingtao, Chefoo, Tientsin, Nagasaki, Kobe and Yokohama and as a consequence the immediate demand for merchandise was soon satisfied. Then came the riots both at Vladivostok and Harbin, followed by the ice closing of the port of entry. These discouraging factors drove many of the traders away and left a market which, while supplied with luxuries, is still demanding staples for the natives and is offering great chance for development. Such is practically the situation today and a period three months from this date will see Northern Manchuria eager for that which is now believed to be the beginning of a new era, which will last a few years at the least.

"No one knows what Japan intends to do in Southern Manchuria either in the way of trade or developing her portion of the Chinese Eastern railway and the new line that is to be built there to connect with Korea."

## HUNDREDS IN DANGER

FISHERMEN AND THEIR FAMILIES  
AFLOAT ON THE ICE IN THE  
GULF OF FINLAND.

## TWO HUNDRED GET ASHORE

BUT EIGHT HUNDRED OTHERS  
APPEAR TO BE DOOMED TO  
PERISH AT SEA.

Helsingfors, Finland, March 5.—It is feared that 800 fishermen with their families who are afloat on the ice in the Gulf of Finland, are doomed to perish. A fortnight ago about 1,000 persons were fishing off the Eastland, when the ice parted and they were driven on to the Baltic sea.

Later the wind changed to the east and Saturday a floe on which there were 200 persons came ashore at Fredericksham. The fate of the others is unknown.

## CAR BARNS DESTROYED BY FIRE.

One Life Lost and Valuable Property Burned.

New York, March 5.—The Forty-second street car barns of the Metropolitan Railway company, extending from 651 West Forty-second street to the Hudson river, were destroyed by fire at night. One man, said to have been an employee of the company, lost his life, and several persons were injured, a fireman seriously. Over thirty cars were destroyed. The total damage is estimated at more than \$200,000.

The fire was exceptionally spectacular. Several big tanks of the Consolidated Gas company located directly across the street were seriously threatened by the fire, and a report that they were about to explode sent several thousand spectators in a wild flight for safety. In the rush several persons were hurt.

The uptown ferry station of the West Shore railroad at the foot of Forty-second street was also threatened. Later when the fire in the car barns was practically under control a party of train passengers, being escorted from the ferry station by a squad of policemen, narrowly escaped injury from flying bricks when one of the long walls of the burned structure came down with a crash.

When the fire had gained great headway, a man suddenly appeared at one of the rear windows on the second floor. He was hemmed in by the flames and his clothing was aflame. Lieutenant Gorgan of Engine Company 65 reached the window by means of a ladder and was about to take hold of him when the man fell back into the flames. Gorgan was compelled to beat a hasty retreat to save his own life.

The fire originated from a short circuit in one of the cars which had been run into the barn for storage during the night.

## ROBBERY STORY DOUBTED.

New Jersey Baker Held on a Charge of Embezzlement.

Millville, N. J., March 5.—Frederick Roedel, the baker, whose story of losing \$4,000 by assault and robbery last Monday morning startled this city, is now held in \$3,000 bail by Mayor Payne for his appearance at the April term of court to answer charges of embezzlement and conspiracy. Roedel claimed he was held up by two men who robbed him of the money. The charge against him was preferred by Milburn M. Hess, who held a mortgage of \$1,100 on a brick company's plant which was burned in December. Roedel was treasurer of the concern. Hess did not believe the robbery story and had detectives investigate it. According to them, Roedel told the robbery story in order to get control of the \$2,700 insurance money that had been paid to him. Roedel affirms that his story of the assault and robbery is true.

## WILL RENOUNCE HIS RIGHTS.

Prince Eugene of Sweden to Marry a Resident of Paris.

Paris, March 5.—It is reported that the queen of Sweden and her son, Prince Eugene, reached here on Feb. 10 and are staying at a little hotel in the Rue Rivoli.

It is now authoritatively put forward that the queen accompanies her son in order to meet a Swedish lady, now resident in Paris, with whom the prince is deeply in love. He purposes to contract a marriage with her and thereby renounce his royal rights to the succession.

The way to fame is like the way to heaven, through much tribulation.—Sterne.

## VICTIMS OF THE TORNADO.

Twenty-four Killed and Forty-six Injured at Meridian, Miss.

Meridian, Miss., March 5.—The revised list of casualties in the tornado which swept through this city Friday evening shows a total of 24 dead and 46 injured. A number of the latter are not expected to live. No additional deaths have been reported since Saturday night.

The property loss has been semi-officially reported at \$1,250,000, the estimated destruction of residences alone being placed at 500, practically all in the Lindsey hill section of East End and Georgetown. Of the sufferers from the tornado only five carried tornado insurance amounting to \$67,000.

Seven companies of state militia are still on guard and enforcing work by idle negroes, 100 being at work removing the debris. An order was issued at night ordering the removal of the troops on Tuesday.

Relief work was continued all day and hundreds of mechanics will begin rebuilding in the morning.

Authentic reports received from Macon, Marion and Meehan Junction, all of which were reported destroyed, stated that there were no fatalities at these places.

The general relief committee during the day decided to accept volunteer contributions from other points, but stated positively that Meridian is not seeking outside aid.

## FALLS INTO LAKE ISEO.

Italian Village of Tavernola Almost Entirely Destroyed.

Rome, March 5.—The village of Tavernola, built on the perpendicular cliffs above Lake Iseo, in the province of Brescia, was almost entirely destroyed during the morning by the rocks suddenly giving way, apparently because the lake had eaten into the base of the cliffs. The disaster was preceded by a loud roar, which gave the 1,000 inhabitants time to escape. One fisherman was killed. About 200 feet of rock and the houses on it fell into the lake.

## NOTED SOLDIER DEAD

LIEUTENANT GENERAL JOHN M. SCHOFIELD PASSES AWAY  
IN FLORIDA.

St. Augustine, Fla., March 5.—Lieutenant General John M. Schofield, U. S. A., retired, former head of the army, died at 8:20 o'clock p. m. He was attacked during the morning with cerebral hemorrhage. His wife and young daughter were with him.

Washington, March 5.—General John M. Schofield, who died at St. Augustine, Fla., was secretary of war during 1868-69 and his career was marked by a continuous service in the army from the time he entered West Point in 1849 until he retired, Sept. 29, 1895, with the rank of lieutenant general, the highest military rank then permitted by law. His command of the army extended from 1888 to 1895. Since his retirement he has made frequent visits to Washington, though he made it a practice each year to spend the winter in Florida and the summer in the East. He was a well known member of the Loyal Legion, and for two terms was its commander-in-chief. He was seventy-four years of age.

## DENOUNCED THE GOVERNMENT.

Chicago Socialist's Utterances Vigorously Applauded.

Chicago, March 5.—At a meeting here during the day of the Industrial Workers of the World, an organization recently launched for the purpose of uniting Socialists, A. M. Simons, editor of the International Socialist Review, was vigorously applauded when he denounced the government authorities for the arrest of men accused of complicity in the assassination of Ex-Governor Steunenberg of Idaho.

"We are growing in strength and nearing a crisis," he said. "We are strong enough to prevent them from hanging those men in Idaho. Our lives must be given before we permit those boys to hang."

Another speaker at the meeting was Oscar Neebe, who has not been heard in public since his conviction, imprisonment and subsequent release in connection with the Haymarket riot.

A subscription amounting to \$200 was made for the purpose of assisting the Western Federation of Miners in the defense of Moyer, Haywood and their comrades, who are under arrest in Idaho. A mass meeting of Socialists netted \$48 for the same purpose.

## Big Gift From Minneapolis Man.

Lindsborg, Kan., March 5.—Colonel C. A. Smith, a lumberman of Minneapolis, Minn., has offered to give \$100,000 to Bethany college, Lindsborg, on condition that the college raise a like sum.

## SETTLEMENT LIKELY

STATED THAT FRANCE AND GERMANY WILL ADJUST DIFFERENCES OVER MOROCCO.

## THE PLAN OF AGREEMENT

CONCESSIONS ON BANK QUESTION BY FRANCE AND ON THE POLICE BY GERMANY.

Algiers, March 5.—One of the delegates having a most vital interest in the Moroccan conference, said during the evening that a settlement of the controversy between France and Germany now seems possible, but he declined to make known the lines the arrangement might take. However, recent events have indicated that if any settlement is reached it will most likely be because France would make concessions on the bank question and Germany in return would adopt a less uncompromising attitude concerning the police.

## GIVES SATISFACTION IN PARIS.

Vote at Algiers Good News to the Frenchmen.

Paris, March 5.—The vote at Algiers Saturday on the proposition to proceed to the immediate discussion of the Moroccan police question gives great satisfaction here. Public tension was such that the vote was welcomed both as a success and as showing that France is able to count upon the almost unbroken support of Europe. French officials have claimed for some time that if a vote were possible it would give France a sweeping majority. It appears that Saturday's division did not produce a recorded vote, yet the powers aligned themselves with sufficient precision to amount to this. All the French journals give the division in the form of a vote, the eight voting in the affirmative being France, Great Britain, Russia, Spain, Portugal, the United States, Italy and Holland, and the negative three being Germany, Austria and Morocco. The officials had even considered Austria as doubtful and had Austria balloted in the affirmative the entire vote of Europe and America would have been ranged on the side of France.

The semi-official Temps seems to accept the decision of the conference as a vote in favor of France's proposals, saying:

"The vote, though referring to a question of procedure, is valuable to us from more than one viewpoint. Not only have Great Britain, Spain, Russia and the United States clearly adhered to our ideas, which was foreseen, but Italy, Belgium, Portugal and Holland unhesitatingly recognized the loyalty to our proposition." The Temps' correspondent at Al-

giers, however, points out that "the vote refers merely to procedure, signifying the desire of the conference to attain a result. At the same time the character and import of the action of the delegates with reference to procedure should not be minimized."

The result also affects the diplomatic status of the controversy. Germany wants to settle the bank question before that of the police; but France does not wish to grant concessions on the bank until she is sure that Germany will make a reciprocal move concerning the police. Therefore, the decision of the conference to consider the police question requires that Germany shall say whether she is or is not prepared to change her attitude relative to the police. Germany's answer will thus determine whether France will yield on the bank question. The indications are that if Germany refuses to give way on the police, France will not yield on the bank, thus accentuating the former deadlock by carrying it into the open conference.

## TACLOBAN BURNED.

Important Philippine Island City Destroyed by Fire.

Manila, March 5.—Tacloban, the capital of the island of Leyte, has been destroyed by fire. The financial loss is reported to be \$600,000. Tacloban was the fifth city of the island and was situated in an important hemp district. A number of warehouses were destroyed.

Government assistance will be rushed.

## Chinese Prince in St. Paul.

St. Paul, March 5.—Prince Tsai Tsch, cousin to the emperor of China, and the other distinguished members of the imperial Chinese commission arrived in St. Paul at 8:30 o'clock p. m. They were driven in carriages from the union depot to the Aberdeen, where they spent the night. They will see the points of interest in the Twin Cities, call on Governor Johnson and then go to Chicago.

## On Charge of Counterfeiting.

East St. Louis, Ill., March 5.—Detectives during the day arrested James A. Sapp, thirty-one years old, and his brother Jesse, eighteen years old, on the charge of making counterfeit dollars. The brothers formerly lived in Xenia, O. Floyd, a third brother, suspected of being a "lookout," was arrested also.

## PARDONS LIEUTENANT SCHMIDT.

Czar Extends Clemency to Condemned Rebel Officer.

Odessa, March 5.—It is announced from St. Petersburg that Emperor Nicholas has pardoned Ex-Lieutenant Schmidt, who commanded the Russian cruiser Otchakoff during the mutiny at Sebastopol, and who was recently sentenced to death by a court-martial.

Addressing the court before sentence was passed upon him, Lieutenant Schmidt said: "I will believe that my pillory will be the frontier post separating old Slavish Russia from new free Russia. If I could buy Russian freedom with the most terrible death, I would die smiling."

MILITIA WILL RETURN HOME.  
No Danger of Further Race Riots at Springfield, O.

Springfield, O., March 5.—The last scene of the recent race riots here will be enacted during the morning, when the nine companies of militia now on duty will return home. The four companies of the Fourth regiment will return to Columbus by train and the Xenia and Urbana companies will leave on the traction lines. The estimated cost to the county of the militia alone will be \$10,000. The city has been quiet all day. The body of the dead brakeman, M. M. Davis, was taken to the home of his parents in Columbus during the day.

It is said that evidence has been secured against about 300 persons, including many mere boys, one but thirteen years old. The investigation shows that the mobs were made up almost wholly of young men from sixteen to twenty-one years of age.

The grand jury that is to be called Tuesday is expected to make a thorough investigation and to make such an example of offenders that there will be no more mobs in this city for a long time to come.

## KILLS HIS WIFE WITH A HAMMER.

Buffalo Man Then Blows Out His Own Brains With a Rifle.

Buffalo, N. Y., March 5.—Henry L. Whitbeck, a physician and dentist, killed his wife with a hammer during the day and then blew his brains out with a rifle.

Whitbeck walked up behind his wife as she was sitting in a rocking chair and struck her a terrible blow on either temple with the hammer. Then he walked into the next room, where he took up a rifle. Resting the butt on the floor, he pressed his forehead against the muzzle and pulled the trigger.

Mrs. Whitbeck was taken to a hospital, where she died in an hour. She had been an invalid many years. Whitbeck recently had been a patient in a sanitarium.

## Bargaining for Transports.

Seattle, Wash., March 5.—The Great Northern Steamship company, it is said, has been requested by the war department to name a price for the chartering of the Minnesota and Dakota to be used as transports in case of hostilities with China, and the company has replied satisfactorily, the report says.

## Rumor Without Foundation.

Boise, Ida., March 5.—There has been a rumor that Jack Simpkins has been arrested, it being added that he had confessed and sent word to "Steve" Adams to do likewise. The improbability of such a story and explicit denial by the authorities indicate it is without foundation.

## Accidentally Kills Her Sister.

Gettysburg, Pa., March 5.—Mrs. Isaac I. Weikert, residing near here, accidentally shot and killed her sister, Miss Eliza Weaver, aged thirty-five years. Mrs. Weikert was examining a revolver, which had been purchased by her husband, and pressed the trigger, presuming it to be empty.

CONGRESSMAN STEVENS is authority for the statement that Congressman Buckman is the hardest working congressman in Washington. He is always on the go. Between sessions and committee meetings he can be found in the different departments looking after matters in which his constituents are interested. He comes nearest being perpetual motion of anything known in the National capitol. Herein lies Mr. Buckman's strength—thoroughness. The same energy he is now putting into his work in Washington he used to display in his private business enterprises, allowing nothing to go in a haphazard manner. This same vim and enterprise he has always injected into his political campaigns and the result is known to all men. Mr. Buckman is not an orator, and this is a fortunate thing for the district. Talk is cheap, but work counts always and every where.

## TRAGEDY IN WEST DULUTH.

Game of Cards Results in the Murder of an Austrian.

Duluth, March 5.—Rade Tonkovich, an Austrian, thirty years old, was shot and almost instantly killed in a West Duluth saloon early in the day.

Matt Ivankovich, thirty-seven years old, who is alleged to have fired the fatal shot, is under arrest, charged with murder. Matt Vraner, aged twenty-three, who was with Ivankovich at the time of the tragedy, is also in custody. Both fled after the shooting and were arrested in Superior. They are now at the city jail. The crime is said to be the result of a game of cards.

Tonkovich was shot in the back while leaving the enclosure at the rear of the saloon ahead of the alleged murderer. The ball passed through the heart and left lung and into the liver, where it was found at the postmortem examination.

### DISTINGUISHED SPEAKERS.

Appear Before the Student Volunteer Convention.

Nashville, Tenn., March 3.—Distinguished speakers appeared before the Student Volunteer convention at both of its sessions during the day and at the eleven conference meetings held during the afternoon.

They were met at the train by Mr. Longworth's private secretary and drove immediately to the residence on Eighteenth street, where they have taken up their home. Mr. Longworth will resume his legislative duties at once.

### Trade With Austria-Hungary.

Washington, March 5.—The trade of the United States with Austria-Hungary during the fiscal year 1905, according to a bulletin of the department of commerce and labor issued during the day, was approximately \$22,100,000, of which over \$10,300,000 were imports and \$11,800,000 exports.

### TO DISBAR JUSTICE DEUEL.

District Attorney Jarome and Two Other Men Bring Suit.

New York, March 3.—Following the recent testimony about Town Topics in the Hapgood libel trial, Justice Joseph M. Deuel of the court of special sessions during the day accepted service of papers in a suit instituted to disbar him as a justice. The suit is brought by District Attorney Jarome, James W. Osborne and Richard Shepard, acting as citizens. The specifications include that of conducting business other than that of a justice, and of being the owner and manager in part of Town Topics and other publications.

### "Cutest Thing Rockefeller Did."

When John D. Rockefeller's pastor, the Rev. Charles A. Eaton of Cleveland, was recently asked concerning the whereabouts of his parishioner, he said:

"Honestly, I don't know. I haven't the slightest idea. If I knew I would tell you." Then Dr. Eaton chuckled. "Cutest thing Rockefeller ever did," he said. "The whole thing's a farce anyway. I saw Rockefeller last November, just before he began to be so badly wanted. After that the shrewdest detectives and smartest reporters in the country could not find the richest and most conspicuous man in the world."

### Conference Is Ended.

Nashville, Tenn., March 5.—The great quadrennial conference of the Volunteer Students, which has been in session in Nashville for the past five days, closed with the benediction pronounced by Professor James Dobson of Edinburgh, Scotland, at night.

### King and Kaiser Will Meet.

Berlin, March 5.—The Tageblatt says that Emperor William and King Edward probably will meet at Breshau at the beginning of September, when King Edward will be the guest of the emperor at the maneuvers in Silesia.

### Fatal Quarrel Over a Woman.

Henderson, Ky., March 5.—In a quarrel over a woman here during the day Andrew Perkins shot and instantly killed William Ward. There had been bad feeling between the men for some time. Perkins made his escape.

### TELEGRAPHIC BREVITIES.

J. Pierpont Morgan is in Rome.

A spacious and splendidly equipped athletic field costing \$1,000,000 is proposed for Columbia university.

William F. Ross, aged seventy-two, superintendent of the Fremont, O., public schools since 1864 and a prominent educator, is dead.

Dr. W. T. Campbell, who with his father and three brothers, founded Des Moines, Ia., is dead in St. Louis at the age of eighty years.

In a sermon delivered Sunday at St. Louis, Archbishop J. J. Glennon severely criticised theaters and deplored the tendency of people to patronize them.

## STATEHOOD MEASURE

WILL PROBABLY OCCUPY MOST OF THE TIME OF THE SENATE DURING THE WEEK.

### THE FORAKER AMENDMENT

EVERY POSSIBLE EFFORT IS BEING MADE FOR AND AGAINST THE PROVISION.

Washington, March 5.—The senate will devote most, if not all the week, to the consideration of the statehood bill with a view to reaching a vote on it next Friday, in accordance with the agreement arrived at last week. There is a possibility that Senator Culberson may speak during the day on the railway rate question but if he does this will be the only interruption of the consideration of the bill for the creation of two new states. If the Texas senator does not speak, either Senator Nelson or Senator Long will take the floor in support of the statehood bill. If they do not get an opportunity to speak during the day they will find it the following day and from that time forward it is expected that the subject will be pressed until the time set for voting, which is 4 p. m. Friday. Senator Patterson probably will close the debate for the opposition and Senator Beveridge for the bill. These will not be set speeches in the usual meaning of that work, but are sure to provoke so much discussion as to cause the controversy to take on the character of a general debate.

Practically all the interest in the bill centers in the Foraker amendment and every possible effort on both sides is being made for and against the provision. Even the friends of the admission of Arizona and New Mexico admit the vote will be close, but the opponents of the measure appear to be confident of success. Friends of the measure say that with the Foraker amendment attached to the bill it will be allowed to die, and the opponents of the measure say that with the amendment attached, the house will be so eager to accept it that they will not allow the bill to go to conference.

The railroad rate bill will not be interfered with. The bill is receiving more attention from individual senators than any other measure, excepting statehood, and it will remain in the foreground until it is disposed of, regardless of its place on the calendar. The special question under consideration is whether the proposed compromise amendments shall be accepted. The bill will be made the unfinished business as soon as the vote is taken on the statehood bill. Senator Long is still disposed to ask the senate to take the Philippine tariff bill from the custody of the committee on Philippines, but he will not move in the matter until after the statehood vote.

### HOUSE IS SHORT OF WORK.

Indian Appropriation Bill the Only Measure in Sight.

Washington, March 5.—For the second time during the present congress the national house of representatives is short of work. There is nothing in sight except the Indian appropriation bill and this is to be allowed to consume Tuesday, Wednesday and Thursday. Bills on the calendar will be considered during the day under suspension of the rules and Friday will be devoted to private pension bills. Adjournment will then be taken until Monday.

The provisions in the Indian bill that will provoke discussion include a provision to make expenditures for irrigation in several Indian reservations, to investigate the feasibility of establishing a reform school for Indian children in connection with one of the present Indian schools, and to establish a sanitarium for the treatment of Indians affected with tuberculosis. Added vigilance is to be had to suppress the liquor traffic among the Indians, \$10,000 additional being carried in the bill for this purpose. The bill carries a total appropriation of \$7,785,000.

Under suspension of the rules during the day it is not unlikely that an effort will be made to get consideration of the bill abolishing the grade of Lieutenant general in the army. This bill has been introduced and favorably reported from the military committee. It is on the same line as the provision that failed in the army appropriation bill. It makes no provision for the promotion to that rank of Generals Corbin and MacArthur.

### Would Have Roosevelt Go to Kiel.

Berlin, March 5.—Professor Albrecht Wirth of Munich contributes a signed article to Der Tag on the possibility of President Roosevelt and Emperor William exchanging visits. Professor Wirth suggests that President Roosevelt visit Kiel on an American warship and that Emperor William return the visit on a warship to waters near Washington.

### Valuable Records Destroyed.

Portsmouth, Va., March 5.—The general office building of the Seaboard Air Line railway here was destroyed by fire during the morning and while the monetary loss was only approximately \$25,000, there were many valuable records and official papers of the road destroyed.

## HIS CASE IS TRULY SAD ONE

Chas. Tervo, who formerly Work-  
ed in Shops, Sent to Fergus  
Falls Asylum

OPERATED ON SOME TIME AGO

But an Injury which He Sustained  
To His Skull Resulted in  
Insanity

Judge J. T. Sanborn, of the probate  
court, disposed of a case on Saturday  
afternoon which was truly a sad one.  
Chas. Tervo, a former well known em-  
ployee at the Northern Pacific shops,  
was examined as to his sanity, Drs. J.  
A. Thabes and O. T. Batcheller being  
called in, and he was ordered committed  
to the Fergus Falls institution by the  
court.

Several years ago Tervo was injured  
at the Northern Pacific shops on the  
skull and since that time his friends and  
most intimate relatives have noticed  
that mentally he was not the same. In-  
stead of reviving and regaining his lost  
mental capacity, he grew worse until  
finally it was thought best to send him  
to a private sanitarium at Hudson,  
Wis., for treatment. This was done and  
although everything within the scope  
of science and medical attention was  
done the young man did not improve.  
He was finally brought to the Northern  
Pacific hospital in this city and a slight  
operation was performed on his skull,  
but even this did not relieve his mind,  
and he grew worse and worse.

Added to the fact that he was injured  
on the skull to such an extent that  
mind was affected he had other hallu-  
cinations which brought about no good.

A young man of Finnish extraction,  
and a close friend of Tervo's died a short  
time ago, and Tervo got it into his head  
that this man was foully dealt with and  
wanted the authorities to investigate.  
This preyed on his mind to such an ex-  
tent that he could not converse with  
anyone without referring to his friends  
and his untimely death. The authori-  
ties did make some inquiry but found  
no foundation for such a belief.

Tervo has a wife and three children  
and they have the sympathy of a large  
number of friends in the city for the  
circumstance is even worse than death,  
as there is but slight hope that Tervo  
will ever recover.

He was taken to Fergus Falls Satur-  
day night by Sheriff O. P. Erickson,  
who returned to Brainerd this morning.

### Funeral of Julius Winkler

The funeral of Mr. Julius Winkler  
was held yesterday afternoon from  
the Evangelical church, Rev. Seder offi-  
ciating. A large concourse of friends  
attended the services. J. H. Strickler,  
Irvin Simon, Rev. H. A. Seder and R.  
Ilse sang a number of selections. The  
A. O. U. W. attended as a body, reading  
a brief service at the house and at the  
vault. The Molders union also attend-  
ed as a body. At the vault the Ger-  
man Maennerchor sang "Ruhesamt."  
Messrs. J. Strickler Sr., Faulkenreck,  
Richman, R. Ilse, Fox and Oleson acted  
as pall bearers.

Mr. Winkler was a Moulder and Work-  
man, a good and kind husband and  
father and had many friends he leaves  
to mourn his death, his wife, one son  
in Germany, and a daughter, Mrs. Henry  
Krauth, of Dickenson, N. N. D., who is  
here at present. The remains were de-  
posited in the vault.

## MUSIC AND DRAMA.

SKOVGAARD

Skovgaard, the eminent Danish vi-  
olinist and his concert company, includ-  
ing Christine Nilsson, the famous Swed-  
ish pianist and Eleonora Olson, the  
Norwegian prima donna, mezzo soprano,  
will appear at the opera house next Fri-  
day evening, March 9.

Skovgaard is an artist of exceptional  
ability. His execution of the most dif-  
ficult compositions is marvelous. His  
program embraces charming selections  
from Mendelssohn, Chopin, Sarasate,  
Schubert, Weineawski and others be-  
sides his own composition.

Skovgaard plays airy triples with in-  
finite grace and charm as well as vi-  
racity, Beethoven with profound depth,  
breath and virility; Bach with solemn

detachment; Mendelssohn with the  
right sweetness, sentiment and power.  
It is seldom that an artist can master  
to perfection music so different in char-  
acter. Eleonora Olson has a beautiful,  
sweet, rich voice of great range. Chris-  
tine Nilsson is a very worthy member of  
the company. Her remarkable work in  
rendering accompaniments receives the  
admiration of all pianists.

The Skovgaard Concert company have  
had a very successful tour, where ever  
they have appeared, the enthusiasm has  
been great.

NANCE O'NEILL

Miss O'Neill's repertoire includes all  
the great roles, Camille, Nora, Magda,  
Leah, Meg Merriles, Judith, Elizabeth,  
Hedda Gabler, Marianna, Monna Vanna,  
and Lady Macbeth.

After successful engagements in New  
York, Boston and other large American  
cities, Miss O'Neill made a tour of Aus-  
tralia, where she won distinguished suc-  
cess.

In some respects this actress stands  
by herself superior to any woman play-

## CHAS. SWANSON HAS LEASED BIG HOTEL

To be Built by Capitalists at Vir-  
ginia, Minn., the Heart of  
Mesaba Range

WILL COST ABOUT \$60,000

Will be a Seventy-Five Room House  
And Will be Modern in  
Every Respect

Mr. and Mrs. Chas. Swanson returned  
Saturday night from the head of the  
lakes where Mr. Swanson closed a deal  
with some heavy capitalists the terms  
of which will give him one of the best  
hotel propositions in the north west.

He has succeeded in interesting sev-  
eral capitalists in a deal to build a large  
hotel at Virginia, Minn., the heart of  
the Mesaba range, and one of the best  
towns on the range. The plans have all  
been drawn and they call for a structure  
that will cost in the neighborhood of  
\$60,000. It will be a seventy-five room  
hotel and will be modern in every re-  
spect. Mr. Swanson has taken a lease  
for several years and he expects to be  
able to open the new hotel about July  
1 or August 1. Ground will be broke at  
once and the work pushed to rapid  
completion.

Mr. Swanson expects to retain his in-  
terests in Brainerd. He has been a re-  
sident of Brainerd for a long time.  
When he first came to Brainerd he  
worked as a blacksmith at the shops,  
finally went into the saloon business  
and after a few years branched out into  
the hotel business in which he was emi-  
nently successful. He leased the Na-  
tional hotel a short time ago to Land-  
lord George Hoyt and since that time  
has not engaged in business anywhere.  
He is energetic and is sure to succeed  
in the Iron Range city.

The following regarding this hotel  
deal is taken from the Duluth News-  
Tribune:

"The Fitger Brewing company, of this  
city, has definitely decided to erect a  
large hotel at Virginia this summer.  
Plans and specifications are being pre-  
pared by Architect Hunt, of Duluth,  
and as soon as these are finished the  
building contract will be let and work  
begun at once.

"The new hotel will cost when com-  
pleted, between \$50,000 and \$60,000, and  
will be one of the largest, if not the  
largest, single improvement undertaken  
in Virginia this year. The building will  
be of pressed brick and stone, 75 by 125  
feet in dimensions and will contain 75  
sleeping rooms. Everything about the  
hotel will be modern, durable and as  
pleasing to the eye as architectural and  
structural skill can make it. The office  
will be finished in hardwood, with steel  
ceiling, and floor of mosaic tile. A num-  
ber of rooms will have baths, hot and  
cold water, and all will be electric light-  
ed and steam heated."

### NEW OFFICE CREATED

J. M. Heffner is Made Traveling Auditor  
Of the Minnesota & International--  
Succeeded by A. E. Lillyquist

The management of the Minnesota &  
International railway has created the  
new office of traveling auditor, common  
on other roads, but one which has never  
been in effect here. The work generally  
falling to the lot of a traveling auditor  
has been done by Auditor Downie, F. E.  
Stout or J. M. Heffner. Mr. Heffner  
has now been appointed and he is suc-  
ceeded in the auditor's office by A. E.  
Lillyquist, of St. Paul. Mr. Heffner has  
been with the road for a number of  
years and it is a well deserved promo-  
tion.

There is also another new man in the  
M. & I. office in the person of A. J. Eli-  
son, who succeeds G. H. Thomas who  
left for the west some time ago.

### CURED TO STAY CURED

How a Brainerd Citizen Found Com-

Troubles

If you suffer from backache—  
From urinary disorders—  
From any disease of the kidneys,  
Be cured to stay cured.  
Doan's Kidney Pills make lasting  
cures.

Brainerd people testify.  
Here's one case of it:  
Philip O'Neil, of 516 Norwood St.,  
Brainerd, Minn., says: "Brainerd peo-  
ple have seen in the local papers the  
testimony I gave in 1890, recommending  
Doan's Kidney Pills, and many times I  
have been called upon to corroborate  
that statement in personal interviews.  
My confidence in Doan's Kidney Pills  
has not been lessened during the past  
six years. It has shown itself equal to  
all the claims made for it. I was a suf-  
ferer for a long time from backache and  
pains in the loins. The kidneys were  
too frequent and much disordered. The  
trouble became worse and worse and  
nothing helped it until I got Doan's  
Kidney Pills at H. P. Dunn & Co.'s drug  
store. I used this remedy faithfully  
until the annoyance from the kidney se-  
cretions ceased and the pains and back-  
ache disappeared. The cure then ef-  
fected has been most gratifying and al-  
together permanent."

For sale by all druggists. Price 50  
cents. Foster Milburn Co., Buffalo, N. Y.,

## NEWSPAPERS INDICTED.

St. Paul Publications Accused of Violating the Law.

St. Paul, March 3.—The Ramsey county grand jury during the day returned indictments against the St. Paul Pioneer Press, the Daily News and the Dispatch charging them with having violated the John Day Smith law in their published accounts of the execution of William Williams in the county jail here on the morning of Feb. 13, last.

The John Day Smith law, passed in 1889, makes it a misdemeanor for newspapers to print an account of the details of executions "beyond the statement of the fact that such convict was on the day in question executed according to law."

The indictments are against the newspapers as corporations and not against the officers, directors or stockholders of the companies or the editors or reporters of the papers. Individuals are not included. The indictment recites that the law was violated in the publication of the account of the execution.

Although the John Day Smith law has been in force for seventeen years, this is the first indictment of a newspaper under it, though the newspapers of the state have printed detailed accounts of every hanging that has taken place in the state since the law was passed. The Ramsey county grand jury was impelled to remember the John Day Smith law by the charge of the judge, who on Feb. 19 told the grand jury that the newspapers had violated the law, and added that it was for the jury to take such action as in its discretion it saw fit.

The maximum penalty for a misdemeanor is a fine of \$100 or ninety days' imprisonment.

Mexico City, March 5.—Some noted bacteriologists of Europe have been engaged to assist in sanitary work here. Forty new typhus cases were recorded during the day. The number of cases since Feb. 1 is 755, with 152 deaths. The disease has mostly been located with the poorer classes.

## PURE FOOD CRUSADE.

Mrs. Miller Urges Housewives to Fight For Honest Labels.

WANTS PUBLIC SCHOOLS TO HELP

In Speech Before Chicago Woman's Club She Declares Children Should Be Taught How to Recognize Harmful Products—Asks That All Women Demand Good Food Legislation.

At the meeting of the Chicago Woman's club the other day Mrs. Walter McNabb Miller, chairman of the committee on pure food legislation of the General Federation of Women's clubs, urged every housewife and club woman in Chicago to enlist in the fight for pure food and the enforcement of the pure food laws, says the Chicago Tribune.

Mrs. Miller believes that the pure food legislation is adequate to prevent the sale of many spurious articles in Illinois, but that the lax enforcement of the laws enables manufacturers and dealers to foist impure and doctored foods on the unsuspecting housewife.

The speaker urged that the subject of pure food is of sufficient importance to health and life to make it worthy a place in the public school curriculum. In the public schools, she declared, the future breadwinners and home makers should be taught how to distinguish between honest and dishonest labels on canned and bottled goods. It would be a great step forward in the process of educating the child to urge them to make collections of labels just as they now collect cigar bands and stamps, declared Mrs. Miller.

"The first thing the clubwoman of Chicago and Illinois should do," declared Mrs. Miller, "is to demand pure food for her family, for her children. There is nothing of greater importance to the home than pure food. A demand should be made by the clubwomen for a general education, a general knowledge of pure food and the existing pure food laws. The housewives and even the children should learn to discriminate between the labels. They should be instructed to know the difference between an honest and a dishonest label."

"They can get this information by making a careful study of the labels. Let the children make collections of labels, and it will not be long before they will know a good label from a dishonest label. Some of you may not know what I mean by a dishonest label. I mean a label which carries a wrong impression to the buyer, a label which deceives."

"For example, there is a brand of salad oil on the market which is not good. On the label in large letters is printed 'Olive Oil,' and above these large letters are printed in small type the words 'As Good as Any.' These words are printed in a fancy scroll and are not seen by the average buyer."

"In nearly every article put on the market there is a great difference in the matter of grades. To all outward appearances the labels are identical, but the dealers know that one grade is numbered 1, another 2 and a third 3. The average buyer does not know about these numerals. They often buy a third grade article when they mean to buy a first grade article."

"The dealer knows these marks; we do not. Salmon, as an example, is put on the market in three grades. The first grade represents the first catch and is good, the best obtainable. The second grade is the second lot packed and is a little worse. The third grade usually is the salmon which the Indians bring in, half decayed, wretched stuff. All these grades are put up and labeled just the same except for the little numeral. Now, you women would not be satisfied if your dry goods dealer sold you cotton when you asked for silk. Most of you know the difference and would refuse to be deceived. You should be even more particular in buying your foods."

"The clubwomen of Chicago, of your state, the clubwomen of the whole country, must work tirelessly for honest labels. In many states there are splendid pure food laws, but they are not enforced. They will not be enforced until the women rise up and demand their enforcement. We must take the matter into our own hands. It is our right, pre-eminently woman's right, to see to it that the foods she serves in her home are pure and unadulterated."

The subject of pure food was introduced at the meeting by Mrs. George W. Plummer of the pure food committee of the State Federation of Women's Clubs.

## To Drink From Gourds.

Instead of drinking water from glasses certain persons in Washington soon may be using gourds in old rustic style, says the New York Press. Mrs. Roosevelt is preparing to give such receptacles to several close friends. The gourds are of a new variety, called the Theodore Roosevelt gourd, and are the products of the farm she bought in Virginia last summer. The Roosevelt gourd will hold almost a half gallon. Only two have been delivered in the White House, but there is the promise of a big crop. The president loves to drink from a gourd, and when he is at Plain Dealing he delights to go to the spring and quench his thirst in that primitive way.

## LAVISH OFFERING FOR ZION'S CAUSE

Dramatic Response of Dowie's People to Overseer's Plea.

HEAPS OF GIFTS CONTRIBUTED

Call For Sacrifice to Restore Zion City to a Sound Financial Basis Causes Rings, Watches, Bank Books, Pledges of Money and Checks to Be Promptly Placed on Tabernacle Tables—Even Children Gave Trinkets.

The first public address of Deputy General Overseer Wilbur Glenn Voliva to the people of Zion City, made the other morning, was a dramatic appeal for a general act of self sacrifice to restore the city founded by Dr. John Alexander Dowie and its institutions to a sound financial basis, says the Chicago Tribune.

For an hour Zion's new leader preached, taking as his text Paul's letter to the Philippians and urging the stern duty of a complete renunciation of this world's goods.

Then two tables were placed at the front of the platform in the big tabernacle, and the congregation, coming forward in sections, piled them high with the most valuable of their possessions. Women tore off rings and bracelets and threw them on the tables. Men brought watches, diamonds and bank books representing the savings of a lifetime and added them to the heap. Even the children contributed their cherished trinkets.

In the short time that Overseer Voliva has been at Zion City he has won the confidence of most of the people and has given indications of being an able leader. When he arose to speak every face was turned toward him in breathless interest. He began quietly, telling of the sacrifices in the days of the apostles and dwelling upon Paul's exhortation to them to complete self abnegation. Then, driving his points home degree by degree, he made the application. The duties of God's children, he said, are the same today as they were in the time of Paul. Zion is in need. Its people must rally to its support, and gifts must not be made with a grudging hand.

As he sat down there was dead silence. Then Overseer J. E. Excell arose.

"The overseer is right," he said. "Zion needs your help. And Overseer Voliva has been a shining example. He gave all he had to Zion, even the family heirlooms he treasured. He has worked without compensation beyond food and clothing. He comes to us from Australia a poor man."

A prayer and vocal solo followed, and then Overseer Voliva came forward again.

"I want nothing done on impulse," he said. "Whatever you are about to do think it over carefully first. This must be a gift of the heart as well as of the hand."

Then two enormous tables were brought forward and placed in front of the platform. First the officials of Zion City, whom Overseer Voliva had told of what he was about to do at a meeting a few nights ago, brought gifts of silverware, cut glass and jewelry and laid them on the tables. Overseer Voliva himself gave his watch, a gift from his mother when a boy. Afterward the congregation was divided into sections, and one by one the groups were led forward.

It was impossible to make any estimate of the wealth contributed. Twenty-five watches of materials ranging from inexpensive gun metal to solid gold were counted. There were sixty rings, many of them set with diamonds. Earrings, bracelets, brooches and jewelry of every description were thrown upon the piles without an instant's hesitation.

From the men came gifts of houses and lots, pledges of money gifts and checks. R. J. Simmons of Kenosha, Wis., gave \$200. There was one check for \$3,300 and another for \$550. A score gave \$100 and \$300 checks. One man gave an expensive fur overcoat and cap. There were fifty bank books, representing the entire fortunes of as many men. Among the gifts were a violin and an autoharp.

Overseer Voliva's wife contributed every article of jewelry in her possession, some of them gifts of great sentimental value as well as costly from a monetary view.

A considerable proportion of the contributions was made in the coupon books with which the employees of Zion City formerly were paid. Up to the 1st of February all employees in the factories or schools were paid not in cash, but in books of coupons, which constituted claims for merchandise or cash. The use of these was discontinued as part of the plan to place the community on a sound financial basis, and at the same time the stores and banks refused to honor them further.

Coupons to the value of \$20,000 or \$30,000 are still outstanding, and it is chiefly for the purpose of redeeming these that the appeal was made.

A brief cable message from Dowie was read.

## Gold and Silver in His Coal.

W. W. Petty, a coal miner at Wolcott, Wyo., a few days ago noticed a shining coating on the grate in which he was burning some of the product of his mine, says a Wolcott dispatch. He decided that it was silver and sent a small piece of coal to a chemist to be assayed. The assay showed over \$6 a ton in gold, and it is thought that it will run much more than this in silver.

## Keeps Up With Times

H. P. Dunn & Co. Have New Remedy For Stomach Troubles That They Guarantee Will Cure.

In keeping with their custom of always ordering a supply of new remedies as soon as their value has been established, H. P. Dunn & Co. have obtained a supply of Mi-o-na, a remedy for stomach troubles that absolutely cures and restores lost functions of the digestive organs.

Until recently it was thought that pepsin was valuable in the treatment of stomach troubles, but it is now known that while pepsin aids in digesting meats, it has no effect upon starchy foods, such as potatoes, rice, bread, corn meal, etc. As the majority of stomach troubles comes from indigestion of starchy foods, this makes pepsin absolutely useless in most cases.

On the other hand, Mi-o-na contains no pepsin, acts directly upon the gastric glands, restores the lost functions of the digestive organs, revives flagging nutrition, aids in assimilation of food, and, in fact, so strengthens the whole digestive system that you can eat anything at any time without fear of indigestion.

Weakness, nervousness, sleeplessness, headaches, backaches, furred tongue, pain and distress after eating and debility are the result of a weak and faulty digestion. Use Mi-o-na, and all these symptoms will be overcome, and you will have perfect health.

Get a 50 cent box of Mi-o-na tablets today from H. P. Dunn & Co. and they will guarantee to refund the money if Mi-o-na does not cure.
